Candidate for NCCCLA Secretary 2022-2023

Lisa Shores
Coordinator of Library Services
Rowan-Cabarrus Community College

Education:

- B.A. Social Studies, Secondary Education Licensure
  Pfeiffer University, 2003
- M.L.I.S. Library & Information Studies
  UNC Greensboro, 2005

Employment Background:

2008 – Present: Rowan-Cabarrus Community College
Coordinator of Library Services
As the Coordinator of Library Services for the North Campus, Lisa is responsible for the day-to-day operations of the campus library, as well as responsibility for collection management for all campus library locations, including the acquisition of print and electronic material, cataloging, and resource budget management. As part of the leadership team, Lisa also participates in strategic planning for the library.

2006 – 2008: Pfeiffer University
Acquisition and Collection Development Librarian

2005 – 2006: Johnson C. Smith University
Collection Development and Reference Librarian

2004 – 2005: Rowan-Cabarrus Community College
Reference Librarian (part-time)

Why do you wish to serve in this position and what do you envision achieving during your term in support of NCCCLA's mission?

During my library career, I have maintained continuous involvement in local, state, and national professional organizations, serving in various leadership capacities. However, I have found the most satisfaction working with my local and state organizations, such as NCCCLA. The community college organization provides the opportunity to network with librarians across the state who share the same passions, issues, and challenges. I believe I can be a positive addition to the NCCCLA Executive Board, utilizing my experience and desire to serve to fulfill the NCCCLA mission statement to "serve as a voice for learning resources and services, to advance the cause of education for all individuals, to promote professional development and unity of purpose for all personnel involved in community college programs, and to encourage innovations for support of the instructional process."
